01 After-hours enquiries

⏱ enquiry 10:42 pm · first reply 9:15 am

LOOKS LIKE A lead from your Meta ad lands at 10:42 pm. You see it after breakfast, once they've called other brokers.

COSTS YOU Speed is rare. In a US audit of 2,241 firms, only about 37% answered web leads within an hour; 23% never did.[1]

> **FIX THIS WEEK · FREE**
> Set a WhatsApp Business away message for after hours: thank them, ask one question, say when you'll call (01).

---

02 Portal leads that never reach WhatsApp

⏱ portal alert 11:05 am · first call next day

LOOKS LIKE Alerts from 99acres, MagicBricks or Housing.com (Bayut in Dubai) sit unread under OTP emails.

COSTS YOU You paid for that lead. While it waits, the buyer talks to whoever called first.

> **FIX THIS WEEK · FREE**
> Gmail filter: star and label every portal alert. Within the hour, open wa.me/**[country code + number]** and send 01.

03 Unanswered Instagram DMs

⏱ “price?” DM · opened 3 days later

LOOKS LIKE Someone comments “price?” or DMs “details pls”. It sits in Message requests for days.

COSTS YOU A “price?” is a raised hand. Three days later, they’ve forgotten your listing.

> **FIX THIS WEEK · FREE**
> Check Message requests every evening. In Meta Business Suite (Inbox › Automations), set an instant reply with your WhatsApp link.

04 No qualifying questions

⏱ 15-min call · “actually, I want to rent”

LOOKS LIKE Every enquiry gets the same long call. At minute 15 you learn they wanted a rental.

COSTS YOU Your best hours go to the least serious leads, while ready buyers wait.

> **FIX THIS WEEK · FREE**
> Ask the 6 questions on WhatsApp first, two at a time (templates 02–04, page 8). Label chats Hot, Warm or Cold. Call Hot first.

CLINIC Ask the treatment, new or returning, and preferred time.

05 No visit reminders, so people don’t show up

⏱ visit fixed Tue · no-show Sat

LOOKS LIKE A Saturday 11 am visit, fixed on Tuesday. You drive out, wait 30 minutes: “sorry, something came up”.

COSTS YOU A wasted trip and a blocked slot. Clinics too: Planet DDS reports a 6.9% average dental no-show rate.[2]

> **FIX THIS WEEK · FREE**
> Two reminders: 24 hours before (“reply 1 to confirm, 2 to reschedule”) and 2 hours before, with the Maps pin (templates 06–07).

06 No follow-up after day 2

⏱ 2 calls, no answer · chat forgotten

LOOKS LIKE You reply once and call twice. No answer, so the chat sinks and nobody touches it again.

COSTS YOU Property decisions take weeks. Quiet on day 2 can mean ready in week 3, with whoever kept in touch.

> **FIX THIS WEEK · FREE**
> Day 2: resend template 05. Day 7 and day 30: templates 09–10, with an opt-out. Label the chat Follow-up; check that label daily.

[2] Planet DDS 2025 data, reported by DOCS Education: average dental no-show rate 6.9%, cancellations 12.9% (US practices). docseducation.com/node/53377

07 Leads that aren’t logged anywhere

⏱ 4 inboxes · 0 lists

LOOKS LIKE Leads sit in portal emails, Meta forms, Instagram DMs and WhatsApp. Nobody knows last month’s count.

COSTS YOU You can’t see which source is worth paying for, or which lead a junior dropped.

> **FIX THIS WEEK · FREE**
> One Google Sheet: date, name, phone, source, need, status, next step, next date. Status: New › Replied › Visit booked › Won or Lost. Two minutes every evening.

CLINIC “Need” becomes “treatment”. Keep health details out of it.
